Moonday	Science Fiction & Fantasy	J F Clayton

Reviews

Narrator Heather Tracy ... perfectly pitches her narration to walk the fine line between charming and outrageous. Her aggressively drawling Lady Catherine de Bourgh and a perpetually annoyed Scottish gentleman turned theater director are the highlights of a charmingly voiced cast of secondary characters.

N.M. Audiofile Magazine, 2021

Classically trained British actress Heather Tracy brings all the characters and the events in Susan to life with skill, emotion, and talent. Heather does a fantastic job with the narration. She enriches and elevates the listening experience ... [and] helps the listeners to immerse themselves into this beautiful historical fiction. Flawless narration delivered by a top-notch professional.
